Why Choose Regency?

An exceptional fire, custom elegance and controllable heat are just a few reasons to make a Regency fire part of your family.

In 1979, I founded Regency Fireplace Products with a mission to produce the finest fireplace products available anywhere. As a result, Regency has been honoured with awards for exceptional aesthetics and performance and is known as the premium brand around the world. We have been dedicated to providing Australia & New Zealand with Regency fires for over 20 years: committed to creating products that promote comfort and peace of mind.

I am so confident in the quality workmanship, the finest materials and durable heavy-duty construction invested in each and every product, that I offer a Limited Lifetime Warranty. Invite the comfort, efficiency and style of a Regency gas or wood fire into your home and enjoy quality time for a lifetime – I guarantee it.

GF1500LST

Greenfire Extra Large See-Through Gas Fireplace

There are 2 sides to every fire. The Regency GF1500LST gives you 2x the viewing area and 2x the control. With an artistically designed driftwood log set, that provides a unique view on each side; you can now benefit from maximum heat and maximum flame, in 2 different spaces.

STANDARD FEATURES

- Wide see-through landscape fire with driftwood log set, viewable from each side
- Realistic ceramic glowing ember bed, viewable from each side
- Black enamel reflective side panels
- Two 3-speed fans, one on each side
- Electronic ignition
- RF Remote control allows you to independently operate each fan
- High quality dress guard, on each side
- Dual heat output allows you to control which area is better suited for higher heat
- Direct vent room sealed technology

OPTIONS

- Contemporary door frame & fascia in black or brushed stainless steel
- Premium glass fascia in black
- Clean edge finish option (no fascia required)
- 15mm trim for clean edge finish
- Black or stainless steel inner door frame to mix and match
- Optional framing kit for ease of installation
- LPG/ULPG conversion kits
- Horizontal or vertical flue options
- AstroCap™ Venting System for horizontal termination
- Heat distribution kit & air duct to distribute heat to other rooms (up to 2 can be fitted)

GF1500LST Technical Specifications on Page 22.

*when installed with a vertical flue kit on NG

Why choose a Direct Vent Fireplace?

A Regency direct vent gas fireplace is the perfect heating solution for your renovation or new construction project. In just three easy steps, you can have a Regency Gas Fire almost anywhere in your home - no chimney needed! Direct vent fireplaces can be flued vertically or out through an external wall, making them ideal for multi-storey homes where conventional vertical flues are not practical. Drawing air from outside the home for combustion, rather than warm room air, means greater heating efficiency.

HEAT DISTRIBUTION KIT

Increase the effectiveness of your fireplace by dispersing warm air from the fireplace to remote locations in the same room or other rooms in your home by using the heat distribution kit.

Optional Heat Distribution Kit

Suitable for the Greenfire™ range, Mansfield™ and Montrose Wood Fireplaces.

1-2-3 INSTANT FIREPLACE

No chimney? No problem! The Regency Zero Clearance range enables you to have a gas log fire installed into a timber or steel framed/plasterboard “mock” chimney breast without the expense and effort of a purpose built brick chimney.

Mansfield™

Non-Clean Air Large Wood See-Through Fireplace

This see-through fireplace gives you 2x the viewing area and 2x the control. The Mansfield is designed to fit into a custom built wall without a brick fireplace or chimney, ensuring it can be featured in any room, while adding ambience and style. The large glass doors provide an exceptional view of the fire whilst complementing the décor of any home. As a slow combustion heater the unit can be controlled to maximize heat output as well as wood usage.

STANDARD FEATURES

- Large see-through glass viewing area (790mm x 310mm)
- Draft control, accessible on each side, with airwash
- Removable door handle tool
- Wood loading ability, on each side
- Stainless steel andirons
- 5mm steel firebox – lined with high quality firebrick
- Zero clearance box included
- Low emissions: 1.3 g/kg
- 63% efficiency

Mansfield Technical Specifications on Page 23.

OPTIONS

- Slim line finishing trims available (30mm & 50mm)
- Base frame kit – raises unit 300mm on sturdy steel frame
- Heat distribution kit with flexible ducting, up to 2 can be used
- Outside air kit with flexible ducting
- Regency triple skin, zero clearance, wood fire flue kit available (must be used with this appliance)

This is a non-clean air model and can only be installed on properties over 2 hectares.

Montrose

Non-Clean Air Large Wood Fireplace

Designed for modern living, the Regency Montrose will add ambience and enjoyment to any room. The large viewing glass with black etched edge provides an exceptional view of the fire whilst complementing the décor of any home. The Montrose is designed to fit into a custom built wall without a brick fireplace or chimney ensuring it can be featured in any room. As a slow combustion heater the unit can be controlled to maximize heat output as well as wood usage.

STANDARD FEATURES

- Large glass viewing area (790mm x 310mm)
- Single draft control with airwash
- Removable door handle tool
- 5mm steel firebox – lined with high quality firebrick
- Stainless steel andiron
- Clean front trim
- Zero clearance box included
- Low emissions: 1.2g/kg
- 62% efficiency

OPTIONS

- Black 4 sided fascia
- Slim line finishing trims available (15mm & 50mm)
- Base frame kit – raises unit 300mm on sturdy steel frame
- Heat distribution kit with flexible ducting, up to 2 can be used
- Outside air kit with flexible ducting
- Triple skin, zero clearance, wood fire flue kit available

This is a non-clean air model and can only be installed on properties over 2 hectares.

REMOTE CONTROLS

The RF (Radio Frequency) Remote Control is programmable up to 7 days a week, including two time zones per day. The remote can be operated from another room, automatically modulating the temperature of your Gas Fire, increasing efficiency and reducing running costs. It also allows you to set and maintain a desired temperature, as well as adjust the flame height and fan speed.

FireGenie® remote control

ASTROCAP™

(FOR DIRECT VENT HORIZONTAL TERMINATION ONLY)

The patented AstroCap will finish off the flue system on the outside of your home making it far more attractive than traditional flue systems. The AstroCap can even be painted to match your home.

AstroCap™ horizontal venting system
(311mm X 311mm)

Enjoy your Regency – for life, with our Lifetime Warranty.

You'll be happy with your Regency for years to come, our Limited Lifetime Warranty guarantees it. Not only have we invested in quality workmanship, the finest materials and durable heavy-duty construction but we have carefully selected a dealer network that is committed to your satisfaction.

All Regency gas fires pass stringent Australian and New Zealand testing standards. We know that you will be as proud of your Regency as we are.

Limited Lifetime Warranty covers the following components: Combustion chamber, heat exchanger, burner tubes and glass (thermal breakage). Refer to owner's manual for details.

NOTE: All product specifications are subject to change without notice. Before installing refer to the relevant product manual for full and up to date information. Stainless steel inner panels will naturally change tone over time. Heating capabilities of units are affected by: drafts under doorways or through flooring, large glass areas not covered by heavy drapes, ceiling heights greater than 2.4m or cathedral type ceilings, poor or no insulation and geographical locations.

Design your own FIREPLACE WITH REGENCY

At Regency, we're all about helping you find the right fire for your home and style. Our beautiful New Zealand website showcases dozens of inspirational images, to show you how our fireplaces accentuate any living area.

To make it even easier for you to choose, we have a customisation tab, so you can see the many different options of fascia's, trims and firebeds on offer.

So go ahead, design your perfect living area, we've made it easy!

Greenfire GF900C

The Regency Greenfire outdoor gas fireplace adds modern elegance to any living space with today's sleek, linear styling. This series features seamless design and beautiful wide angle flames set on your choice of a custom designed log fire or a full bed of shimmering crystals. Efficient, clean-burning zero-heating fuel means there's more style!
